

Mi-Glow®

CircleSol M™

CircleSol M™ is a high flashpoint, refined petroleum distillate specifically designed for use in magnetic particle inspection with its high clarity, low fluorescence and no odor characteristics. CircleSol M™ should be used with Mi-Glow® magnetic inspection particles for optimum inspection performance in an oil media.

Physical Characteristics

Clear, water-white liquid, odorless.

Certification

Every batch of CircleSol M™ meets or exceeds the requirements of applicable military and industrial specifications, including but not limited to AMS 3161, AMS 2641 and A-A-59230. Certification is included with each shipment.

Particle Color

Not applicable.

Average Particle Size

Not applicable.

AMS Standard

3161

SAE Sensitivity

Not applicable.

Temperature Range

32-120°F (0-49°C)
